

ROYAL ARMOURIES (INTERNATIONAL) plc

Making Your Event Greener

By holding your event at our venues you have already taken the first steps in running a greener event as we are a member of the Green Tourism Business Scheme (GTBS). As members of the GTBS we commit to working in a sustainable way and continuously improving our sustainable practices.

Whether you are holding a dinner dance, seminar, meeting, conference or exhibition, there are many ways you can make your event more sustainable. Everyone making a little difference will go a long way.

Here are some ideas:

- 1 Read our Responsible Visitor policy which can be found on our website
- 2 Keep your printed material to a minimum; make your presentation packs A5 instead of A4 (always useful to have a large print option for those with visual impairments). Copy double-sided to save paper
- 3 If your event is an annual one, omit the date from your pop-up stands/poster displays so that you can re-use your marketing material year after year
- 4 Consider your menu. Locally produced food and drink and seasonal produce travels fewer miles to your delegates/guests. Ask our chefs what's in season, they can advise you
- 5 Make the most of RAI's location by checking out the location page on our website. It gives you all the local travel information that you need for your delegates to get to your event without having to use the car!
- 6 Remember we are committed to a sustainable way of working and our staff are always pleased to assist you in making your event greener - let us know how we can help you further
